2-IN-1 CAMPING LAMP
Operation and safety notes

1. Introduction
Congratulations!
With your purchase you have chosen a high-quality product. The operation and safety notes are an integral part of this product. They contain important information for your safety, use and disposal. Familiarise yourself with all of the operation and safety notes before using the product. Use the product only as described and for the specific intended purpose. Do not use the operation and safety notes for future reference. Provide all of the documentation accompanying the product on to third parties.

environment) APPLIES AS SOON AS ONE OR BOTH HAND LAMPS ARE REMOVED FROM THE BASE.

IP44 This symbol indicates Protection Class IP44 (Protection against splash water from all sides). ONLY APPLIES IF BOTH HAND LAMPS ARE INSERTED IN THE BASE. DOES NOT APPLY DURING CHARGING.

This symbol indicates protection class III. SELV safety extra-low voltage.

This symbol informs you about the disposal of the packaging and the product.

In the following, the 2-in-1 camping lamp will be referred to as this product.

Explanation of symbols
Following symbols and signal words are used in these operation and safety notes, on the product or on the packaging.

NOTE! This signal symbol indicates a hazard with a high level of risk which, if not avoided, may result in death or serious injury.

CAUTION! This signal word warns of possible property damage or provides you with useful additional information regarding the use.

IP44 The splash water protection (IP44) only applies if both hand lamps are correctly inserted into the base.

The product is not suitable for household room lighting.

Use USB cable(s) only in dry and sheltered rooms.

IP20 Only use in- or outdoor doors as soon as one or both hand lamps are removed from the base.

Scope of delivery (Fig. 1)
2x 2-in-1 camping lamp
IAN: 470669-2407
Tradex Item No.: 470669-24-A, -B
Colour olive: 470669-24-A

Operating voltage: 3.7V
Lithium-ion battery, 3.7V
1800 mAh at the type, max. 0.6 W
Do not operate the product in wet packaging! There is a risk of fire!

10. Flip the locking mechanism downwards.

The hand lamp(s) are now ready for operation.

NOTE!

The hand lamps are not charged via the base.

If the batteries in the hand lamps are depleted or none are inserted, the hand lamps will not light up as soon as the base is switched on. Only the side light of the hand lamp is illuminated.

Switching the base on/off

Press the ON/OFF switch. See Fig. E.

The LED panel(s) on the base light up.

The following modes are switchable:

Press 1x: 100%

Press 2x: 50%

Press 3x: 25%

Press 4x: SOS flashing signal
