Use

1. Assemble the product as shown in fig. B.
2. Fill the insert (2) with soil and bed in the selected seeds or seedlings. Use the planting tool (7) for this.
Note: Soil should be moist but not wet. Don't pack the soil down too firmly. Follow the instructions for the chosen seeds.
3. Connect the end (8a) of the USB cable (8) with the product's ventilation wheel (4).
4. Connect the other end (8f) of the cable to a USB port of a switched-on laptop/notebook or of a charging station with a USB port.
Note: To operate use only a power-supply unit of protection level II authorised for domestic appliances with a USB output.
5. Open the ventilation slots to dry out excess humidity or if need be remove the cover for a few hours.
6. Use the markers (5) to identify different kinds of plants.
Note: To replant the seedlings use the replanting tool (6) so as not to damage the root system.

Storage, cleaning

When not in use, always store the product clean and dry at room temperature. Only clean the product with a damp cloth and wipe dry afterwards.
IMPORTANT! Never clean the product with harsh cleaning agents.

Setting up

When setting the product up follow the instructions below:
Place the product on an even surface.
Place the product in a location where it is not exposed to strong sunlight.
Place the product in a draught-free location and not close to heat sources.

Switching the light on and off

Note: The USB cable has a control device that switches the LED functions on and off or regulates them.

Control device with button layout (fig. B)

On/off button (8e)
Light change button: 6h/18h and 12h/12h (8d)
Light change button: Alternate among the pots (8c)
Dimmer function-button (8b)

Timer function:

On the timer function you can select from two options:
6 hours switched on/18 hours switched off
12 hours switched on/12 hours switched off
The sequence is repeated daily.

Switching the timer function on/off

1. Before first use, press the on/off button (8e) once to switch the product on.
The control light (blue stripe) switches off.
2. Press the timer function button (8d) once to set the product's timer function to 6h/18h. The LED light on the control device (6H) lights up blue.
3. Press the timer function button again to set the timer function to 12h/12h. The LED light on the control device (12H) lights up red.
Note: The light on the control device serves to indicate which timer function is currently active.
4. Press the timer function button again to deactivate the timer function. The 6H and 12H fields no longer light up.

Disposal

The accompanying symbol indicates that this device complies with Directive 2012/19/EU. This directive indicates that you may not dispose of this device along with basic household waste at the end of its useful life and instead must hand it in to specifically designated collection sites, valuable substance collection stations, or waste disposal facilities.
Look after the environment and dispose of waste properly. Batteries may not be disposed of with household waste. They may contain toxic heavy metals and are subject to hazardous waste treatment. The chemical symbols of the heavy metals are as follows: Cd = cadmium, Hg = mercury, Pb = lead. Dispose of used batteries at a municipal collection site.
For further information about disposal of the product no longer needed, contact your local council.
Dispose of the product and the packaging in an environmentally friendly manner. Store the packaging materials (foil bags, for example) out of the reach of children.
