## Legend

- 1 Spotlight
- 2 Socket
- 3 Solar panel
- 4 Plug
- 5 Union nut
- 6 Sealing ring
- 7 Wall plugs
- 8 Wall bracket
- 9 Cover
- 10 Rechargeable battery
- 11 Battery compartment
- 12 Screw
- 13 ON/OFF switch
- 14 Motion sensor
- 15 Wall bracket solar panel
- 16 Connecting cable

## NOTE!

The mounting materials included in the scope of supply are suitable for normal concrete or masonry walls. Other fasteners may be required for other building materials such as wood. If necessary, consult a specialist company.

For assembly you need a drill and a 8.0 mm masonry drill bit.

## WARNING!

## Fatal danger!

**Do not drill without checking the intended positions for electrical, gas or water lines first! There is a risk of fatal injuries!**

- Damage to electrical, gas or water lines can cause dangerous situations! Use appropriate detectors to determine whether hidden lines are situated in the work area.

## Mounting location

## NOTE!

Please attention to the following when selecting the mounting position, s. Fig. D:

- The spotlight 1 is connected to the wall bracket with a ball joint. This allows you to swing the spotlight 1 to the desired position.

- The motion sensor 14 should cover the desired area.

- The motion sensor 14 has a maximum range of approx. 5 to 8 m and a detection angle of approx. 90°.

- A mounting height of 1.8 to 2.5 m is ideal.

- The product should not be illuminated by street lights at night. This can impair its function.

- The solar panel 15 at the spotlight 1 with **TYPE 499266-22-A** OR the external solar panel 15 with **TYPE 499266-22-B** should be mounted in a place with direct sunlight.

**8. Cleaning and care instructions**

Keep the product free of snow and ice, especially during the winter. Check the motion sensor 14 and the solar panel 15 regularly for contamination. Remove any existing contamination to ensure proper functioning of the product.

## CAUTION!

## Risk of injury!

**Before cleaning, you must turn off the product. There is a risk of electric shock!**

- only clean with a dry cloth

- do not use any strong detergents or chemicals

- do not immerse in water

- store in a cool, dry place and protected from UV light

- wipe off stubborn dirt with a damp cloth

## 9. Conformity declaration

## Felicitation!

You have purchased a product of high quality. The mode d'emploi is part of the product. They contain important information for safety, use and disposal. Familiarise yourself with all of the operation and safety notes before using the product. Use the product only as described or for the specific areas of application. Keep the operation and safety notes for future reference. Provide all of the documentation when passing the product on to third parties.

In the following, the LED SOLAR Light is referred to as the product.

## Explanation of symbols

The following symbols and signal words are used in these operation and safety notes, on the product or on the packaging.

## 5. Safety information regarding batteries

## WARNING!

## Risk of injury and suffocation!

**If children play with the product or the packaging, they may injure themselves or suffocate!**

- Do not let children play with the product or the packaging.

- Supervise children who are close to the product.

- Keep the product and the packaging out of the reach of children.

## WARNING!

## Risk of injury!

**Not suitable for children under the age of 8! There is a risk of injury!**

- Children from the age of 8, as well as people with impaired physical, sensory or mental capabilities, or with a lack of experience and knowledge, must be supervised when using the product and/or be instructed regarding the safe use of the product and understand the resulting dangers.

- Children are not allowed to play with the product.

- Maintenance and/or cleaning of the product is not allowed to be performed by children.

## Observe national regulations!

## WARNING!

## Risk of injury!

**Do not touch leaking batteries with bare hands! There is a risk of injury!**

- Leaked batteries may be fatal if swallowed, so this article and its batteries must be stored out of the reach of small children.

- Swallowing can lead to chemical burns, soft tissue perforations and death. Serious internal chemical burns can already occur within 2 hours of ingestion.

- If a battery has been swallowed, please consult a doctor without delay!

- Keep the batteries out of the reach of children.

## WARNING!

## Overheating and explosion hazard!

**Never recharge non-rechargeable batteries, do not short circuit and/or open them. This may result in overheating, risk of fire or bursting.**

- Keep the product away from heat sources and direct sunlight, the batteries may explode if overheated. There is a risk of injury.

## WARNING!

## Risk of injury!

**Do not touch leaking batteries with bare hands! There is a risk of injury!**

- Leaked batteries may cause chemical burns if they come into contact with skin. Do not touch leaked batteries with bare hands; therefore ensure that you wear appropriate protective gloves in this case!

- Only use type Ni-MH AA, 900 mAh, 1.2 V batteries from the same manufacturer.

- Insert the batteries into the designated battery compartment with the correct polarity.

- Do not use combinations of old and new batteries or rechargeable batteries.

- Store batteries in a dry and cool, not damp, place.

- Never throw batteries into fire.

- Do not short-circuit batteries.

- Disposable batteries also lose part of their energy during storage.

- Remove the batteries if the device is not in use.

- Discharged batteries must be immediately removed in order to avoid battery leakage and thus damage to the device.

- Empty batteries or used rechargeable batteries must be disposed of properly.

- Store disposable batteries separately from discharged batteries, in order to avoid mix-ups.

- Do not drop batteries or expose them to strong mechanical shocks.

## WARNING!

## Risk of glaring!

**Do not look directly into the light of the LED and do not point the LED at other people's eyes. This can impair the eyesight.**

## WARNING!

## Risk of overheating!

**Danger of overheating!**

Remove packaging prior to use.

## 3. Scope of delivery (Fig. A)

Type 499266-22-A

1x LED Solar Light, hereinafter referred to as spotlight 1

with solar panel 15

2x screw 3

2x wall plugs 7

3x rechargeable batteries,

already inserted, hereinafter also referred to as battery 7

1x operation and safety notes (without fig.)

TYPE 499266-22-B

1x LED Solar Light, hereinafter referred to as spotlight 1

with solar panel 15

4x screw 3

4x wall plugs 7

1x wall bracket solar panel 15

3x rechargeable batteries,

already inserted, hereinafter also referred to as battery 7

1x operation and safety notes (without fig.)

## 4. Technical specifications

Type: LED Solar Light

IAN: 436670\_2304

Tradix Item No.: 499266-22-A; B

Leds: 6x 0.08 W

(LEDs are not replaceable)

Operating voltage: 3.6 V

Battery: 3x Ni-MH AA, 1.2 V

(This symbol indicates protection class III. SELV: safety extra-low voltage.)

**Geld voor TYPE**  
499266-22-A:  
Een horizontale richting van het zonnepaneel **2** van 30° tot 40° is ideaal, zo ook hoofdstuk: "Montageplaats".

- Houd het zonnepaneel van de wandhouder **2** in de gewenste positie.
- Marker de boorgaten met een potlood.
- Boor de 2 bevestigingsgaten ( $\varnothing$  8 mm, ten minste 40 mm diep).
- Steek de pluggen **4** in de boorgaten.
- Zet het zonnepaneel van de wandhouder **2** vast met de schroeven **5**.
- Steek het zonnepaneel **2** in het zonnepaneel van de wandhouder **2**.
- Verbind de aansluitkabel **6** door de unie moer **7** van de stekker **8** op de contactdoos **9** te draaien.

**Product afvoeren**  
Het product mag niet weggegooid in het gewone huishoudelijk afval.  
Neem voor informatie over de verwijderingsmogelijkheden van het product contact op met uw lid-filial.

#### Batterien / opladbare batterijen weggoeden

**Defecte of gebruikte opladbare batterijen moeten worden gerecycled in overeenstemming met Richtlijn 2006/66/EG en de wijzigingen daarop.**

**Batterijen en opladbare batterijen mogen niet in het huishoudelijk afval worden weggegooid.** Deze bevatten schadelijke zware metalen. Markering: Pb (= lood), Hg (= kwik), Cd (= cadmium). U bent wettelijk verplicht gebruikt en opladbare batterijen in te leveren. U kunt de batterijen na gebruik gratis inleveren bij ons verkooptuin of in de directe omgeving [bijv. in winkels of gemeentelijke inzamelpunten]. Batterijen en opladbare batterijen zijn gemarkeerd met een doorgestreepte vuilnisbak.

**Wikkel eventueel randhonden rondhangende aansluitkabels op en bind ze vast met kabelbinders of iets dergelijks, zodat ze niet vrij hangen.**

Het product is nu klaar voor gebruik.

#### Product activeren en de accu's opladen

##### LET OP!

- De accu's **7** zijn al geplaatst.  
De accu's **7** zijn bij levering volledig opgeladen. Zij kunnen echter accuscapaciteit verliezen tijdens het vervoer naar de dealer. Laad daardoor de accu's **7** voordat u ze voor het eerst gebruikt.

- In de zomer is ongeveer 1 dag nodig voor het eerste opladen bij constant zonlicht.

- De geïntegreerde laadcontrole van het product voorkomt overladen van de accu's **7**. Vervang de accu's **7** als de lichtopgang niet meer opladen kan.

- Bij constant zonlicht (afhankelijk van het seizoen) kan het opladen van de lege, opladbare accu's **7** enkele dagen duren.

Schuif de ON/OFF-schakelaar **10** na de aankondiging van de spot **1** naar de positie „ON“, zie **afb. C**.

- De accu's **7** worden alleen bij volledige zonlicht opgeladen.

#### De accu's vervangen (afb. C)

##### LET OP!

- Gebruik uitsluitend opladbare accu's van het type: 3x Ni-MH AA, 1,2 V  $\text{---}$  900 mAh.

- Let erop dat de polariteit correct is bij het plaatsen van de accu's. Dit wordt in het batterijvakje **8** aangegeven.

- 1. Demonteer de complete spot **1**.

- 2. Zet de spot **1** uit met de ON/OFF-schakelaar **10** (positie „OFF“).

- 3. Open het batterijvakje **8** aan de achterkant van de spot **1** door de schroeven **9** los te draaien.

- 4. Verwijder het afdekplaatje **6**.

- 5. Verwijder de oude accu's **7**.

- 6. Plaats 3 nieuwe accu's.

- 7. Sluit het batterijvakje **8** met het afdekplateau **6**.

- 8. Draai de schroeven **9** weer aan.

#### LET OP!

Zorg ervoor dat de pakkingring correct is geplaatst voor het batterijvakje **8**, anders is de IPbeschermingsgraad niet gegarandeerd.

- 9. Monteer de spot **1** zoals beschreven in hoofdstuk „Montage van de spot (afb. B)“ weer aan de wand.

- 10. Geld voor TYPE 499266-22-A:

Richt het zonnepaneel **2** op zonlicht.

#### LET OP!

- Gebruik alleen batterijen van het type: 3x Ni-MH AA, 1,2 V  $\text{---}$  900 mAh.

- Als de batterijen niet goed opladen kan, moet de oplader defect zijn.

- Onderhoud de batterijen regelmatig.

- De batterijen kunnen niet worden opladen.

#### 10. Afvalverwerking

##### Verpakking weggoeden

De verpakking en de gebruikswijze van de verpakking zijn geschikt voor de recycling van milieuvriendelijke materialen die u kunt weggoeden bij uw lokale recyclingfaciliteit.

#### 1. Einleitung

##### Herzlichen Glückwunsch!

Sie haben sich mit dem Kauf für ein hochwertiges Produkt entschieden. Die Bedienungs- und Sicherheitshinweise sind Bestandteil dieses Produkts. Sie enthalten wichtige Hinweise für Sicherheit, Gebrauch und Entsorgung. Machen Sie sich vor der Benutzung des Produkts mit allen Bedienungs- und Sicherheitshinweisen vertraut. Benutzen Sie das Produkt nur wie beschrieben und für die angegebenen Einsatzbereiche. Bewahren Sie die Anleitung für spätere Nachschlagen auf. Händigen Sie alle Unterlagen von dem Produkt mit an Ihre Lieferant.

#### 2. Sicherheitshinweise

##### A WAREN!

##### Vorlesungs- und Erst- eckungsgefahr!

Wenn Kinder mit dem Produkt oder der Verpackung spielen, können sie sich daran verletzen oder ersticken!

- Lassen Sie Kinder nicht mit dem Produkt oder der Verpackung spielen.

- Entnehmen Sie bei Nichtbenutzung des Produkts die Batterien.

- Entfernen Sie die Schrauben und den Überwurfmutter.

- Legen Sie die Batterien trocken und kühl, nicht feucht.

- Werfen Sie Batterien auf keinen Fall ins Feuer.

- Schließen Sie Batterien nicht kurz.

- Batterien verlieren auch bei der Lagerung einen Teil ihrer Energie.

- Entfernen Sie bei Nichtbenutzung des Produkts die Batterien.

- Entfernen Sie die Schrauben und den Überwurfmutter.

- Legen Sie die Batterien getrennt von anderen Batterien ab.

- Bewahren Sie das Produkt und die Verpackung außerhalb der Reichweite von Kindern auf.

#### 3. Einleitung

#### 4. Sicherheitshinweise

##### A WAREN!

##### Vorlesungs- und Erst- eckungsgefahr!

Nicht für Kinder unter 8 Jahren geeignet! Es besteht Vorlesungs- gefahr!

- Kinder ab 8 Jahren und darüber sowie Personen mit verringerten physischen, sensorischen oder mentalen Fähigkeiten oder Mangel an Erfahrung und Wissen müssen bei der Benutzung des Produkts keine Gefahr ausgesetzt werden.

- Kinder dürfen nicht mit dem Produkt spielen.

- Wartung und/or Reinigung des Produkts dürfen nicht von Kindern durchgeführt werden.

- Bei konstantem Sonnenlicht kann der Leuchtdurchgang nicht mehr verbessert werden.

- Kinder dürfen nicht mit dem Produkt spielen.

- Beachten Sie geltende nationale und internationale Normen.

- Beachten Sie die Anweisungen im Handbuch.

- Beachten Sie die Warnungen im Handbuch.
