UV-INSECT KILLER WITH LIGHT
UV-INSEKTENFALLE MIT BELEUCHTE
PIÈGE À INSECTES UV AVEC LUMIÈRE DÉCORATIVE

IAN 406846_2207

NOTE!

The product has a built-in rechargeable battery that cannot be replaced by the user. In order to avoid hazards, the battery may only be removed by the manufacturer or its service agent or by a comparably qualified individual.
When disposing of the product, please note that the product contains a rechargeable battery.

⚠ CAUTION!

Danger of overheating!
Remove packaging prior to use!

7. Start-up

1. Remove all packaging materials.
2. Check whether all parts are available and undamaged. If this is not the case, notify the specified service address.

Legend

- Product
- Cleaning brush
- USB-C cable
- USB-C plug
- USB plug
- Charge indicator
- LED
- USB-C socket
- Hanging hole
- ON/OFF switch
- UV light
- High voltage grid
- Chamber
- Protective grid

Charge the Li-ion battery

NOTE!

The Li-ion battery must be charged for 12 hours before first use.

NOTE!

The UV light ⑤ can only be used together with the high voltage grid ⑥.

NOTE!

The high voltage grid ⑥ deliberately kills all kinds of insects. This relates to endangered insect species, too. Therefore, use the product in enclosed spaces or tents.

NOTE!

The product must be recharged during the charging process.

NOTE!

The product can be used with the appropriate technical data (power supply/USB connection port) using the USB-C cable ③.

The product can only be charged in an operating device with a SELV output and a maximum operating peak output voltage (Uout) of 5 V and a maximum output of max. 1 A.

NOTE!

The product should be recharged at a month if it is not used for a long period of time. If the product has not been charged for a long period of time (approx. 2 months), the Li-ion battery will be deep discharged. Then the product should be charged and discharged several times to reactivate the Li-ion battery.

Setting up the product

Position the product in an appropriate place, see **Fig. C**.

NOTE!

The surface should be even, so that the product cannot fall over. Place a protective base under the free space around the product.
Place a protective base underneath the product, for example. Sensitive surfaces could become scratched by the product.

1x USB-C cable ③
1x Instruction manual (without fig.)

Hanging up the product

Hang the product with the hanging hole ⑧ on an existing hook or similar, see **Fig. C**.

8. Cleaning

NOTE!

Risk of material damage
- Make sure that the device is not usable.
- Make sure that the product is safeguarded from falling down.
- Make sure that the hook or cord can carry the weight of the product.
- Ensure there is sufficient free space around the product in case the product falls down.
- It could collide with another object and cause damage. There is a risk of material damage.

Switching the product ON/OFF

To switch on/off, press the ON/OFF switch ⑦. The UV light ⑤ and high voltage grid ⑥ are switched on.

Press 1x: UV light ⑤ and high voltage grid ⑥ ON
Press 2x: UV light ⑤ and high voltage grid ⑥ OFF
Press 3x: Product ⑤ ON

NOTE!

Long press of the ON/OFF switch ⑦ in any of the described modes: Product ⑤ OFF

NOTE!

The UV light ⑤ can only be used together with the high voltage grid ⑥.

9. Conformity declaration

This device complies with the basic requirements and other relevant regulations of the following directives: Electromagnetic Compatibility Directive 2014/30/EU, EU RED 2014/53/EU and the RoHS Directive 2011/65/EU. The complete conformity declaration is available from the

10. Disposal

Disposal of the packaging

The packaging and packaging materials are made of recyclable raw materials. Dispose of packaging materials which you are not disposing of in local recycling centres.

Disposal of the product

The product contains valuable raw materials which can be recycled in accordance with Directive 2012/19/EU on WEE and it amendments. Batteries and defective batteries are not permitted to be disposed of with household waste. They contain harmful heavy metals. Marking [Pb] = Pb (lead), [Hg (+ mercury), Cd (+ cadmium). You are legally obliged to return used batteries and rechargeable batteries. In this way, you can either return batteries to your point of sale or to the direct vicinity (e.g. with a retailer or in municipal collection centres) free of charge. Batteries and rechargeable batteries are marked with a crossed-out waste bin.
Rechargeable batteries must only be disposed of when discharged. Discharge the battery by leaving the product switched on until no longer lights up.

11. Warranty

Dear customer, the warranty on the product is 3 years from the purchase date. In the event of defects in the product, you have the right to exercise your statutory rights against the seller of the product. These statutory rights are not limited by our warranty described in the following.

Warranty conditions

The warranty begins on the date of purchase of the product. Please keep the original receipt. This document is required as verification of the purchase.
If a material or manufacturing defect is found within three years from the purchase date of this product, we will repair or replace the product, as per our choice, at no charge to you. This warranty service requires the submission of the purchase receipt and that the defect occurs within the three-year period and a short verbal description of the defect and when it arose.
If the defect is covered by the warranty, the repaired or a new product will be returned to you. The warranty period does not restart with the repair or replacement of the product.

Guarantee period and statutory claims for defects

The guarantee period will not be extended by the warranty. This also applies to replaced and repaired parts. Damage and defects which may possibly already exist upon purchase must be reported immediately after unpacking. After the guarantee period has expired, subsequent repairs shall be subject to a fee.

Scope of guarantee

The device has been carefully produced and tested according to strict guidelines and conscientiously inspected before delivery. Our guarantee service applies to material or manufacturing faults. This guarantee does not extend to product parts, which are exposed to normal wear and tear and can therefore be regarded as wearing parts or to damage to fragile parts, e.g. switches or which are made of glass.
The guarantee shall be void, if the product is damaged, not used properly or maintained contrary to the proper use of the product, all of the safety instructions and safety instructions must be precisely complied with. Purposes not mentioned explicitly are dissuaded from or warned against in the operating instructions must be avoided.
The product is only intended for private and not commercial use. In the event of abuse and improper handling, use of force and with interventions, which are not performed by our authorised service branch, the guarantee shall lapse.

Processing in the case of a guarantee claim

In order to ensure quick processing of your concern, please have the following information and documents ready:
- your receipt as proof of purchase
- the article number (e.g. IAN 406846_2207)
- your full address
- your e-mail address
- your telephone number

You can find the article number on the rating plate on the product, on an engraving on the product, the title plaze of your purchase or in the course of a back or underside of the product.
If malfunctions or other defects occur, first contact the service department listed below by phone or e-mail.
You can then send a product that has been recorded as being defective, together with the proof of purchase (till receipt) and stating what is wrong and when it occurred, post-free to the service address provided to you.

On www.lidl-service.com, you can download many other manuals, product videos and installation software.

With this QR code, you can directly reach the Lidl Service website via your smartphone (app required) or enter the serial number (IAN 406846_2207).

12. Declaration of conformity

The declaration of conformity can be requested from the manufacturer. The declaration of conformity for the product(s) listed in this manual can be found on the following website: www.lidl-service.com

13. Service

Please contact the service department listed below for all questions regarding operation, transport, maintenance and disposal of the product.

1. Introduction

Congratulations!

With your purchase you have chosen a high-quality product. The operation and safety notes are an integral part of this product. Familiarise yourself with all the operation and safety notes before using the product. Use the product only as described and for the specified areas of application. Keep the operation and safety notes for later reference. Provide all of the documentation when passing the product on to third parties.

Hereinafter, the UV Insect Killer with Light will be referred to as the product.

Explanation of symbols

The following signal words and symbols are used in these operation and safety notes, on the product or on the packaging.

⚠ WARNING!

This signal symbol/word indicates a hazard with a high level of risk which, if not avoided, may result in death or serious injury.

⚠ CAUTION!

This signal symbol/word indicates a hazard with a medium level of risk which, if not avoided, may result in minor or moderate injury.

NOTE!

This signal word warns of possible property damage or provides you with additional information regarding the use.

This symbol indicates additional information.

This symbol indicates only interior use.

This symbol indicates use only.

This symbol indicates the ON/OFF switch.

This symbol indicates that a special waste disposal point or unit is required to connect electrical equipment to the mains supply.

This symbol (Safety Extra Low Voltage) denotes voltages that offer protection against electric shock due to their voltage level and insulation.

This symbol indicates that the product has a magnetic defence.

This symbol indicates high voltage.

This symbol indicates direct current.

This symbol indicates alternating current.

This symbol indicates protection class II.

These symbols tell you more about the disposal of the packaging and the product.

CE Conformity declaration (further information in the formity declaration").
Products that bear this symbol fulfil all applicable Community regulations of the European Economic Area.

2. Safety intended use

⚠ WARNING!

Risk of injury!
The product must not be used in the open environment. There is a risk of injury from electric shock!

The product is not intended for commercial use. Different use or a modification of the product are not deemed as intended use and may lead to hazards, injuries and damage. The distributor assumes no liability for damage that results from improper use.

The product is exclusively suitable for interior use.

The product is not suitable for household room light fittings.

Use USB-C cable(s) only in dry and sheltered rooms.

The product is not suitable for use by persons (including children) whose physical, sensory or mental capabilities or with a lack of experience and knowledge, must be supervised when using the product and/or be instructed regarding the use of the product and understand the resulting dangers.
Children are not allowed to play with the product.
Maintenance and/or cleaning may not be carried out or allowed to be performed by children.

Observe further notifications!

- Observe the applicable national requirements and regulations for the use and disposal of the product.

⚠ WARNING!

Risk of injury!
- **Do not use in an environment! There is a risk of injury!**
- The product is not allowed to be used in an explosive environment. The product is not protected against ingress of water, which flammable liquids, gases or vapours.

⚠ WARNING

Risk of injury!
- **Risk of injury from electric shock!**
- Only plug the product in interior spaces.
- The product ⑤ cannot be operated during the charging process.
- Connect the product to a device with the appropriate technical data (e.g. power supply/USB connection port) using the USB-C cable ③.
- The product can only be charged in an operating device with a SELV output and a maximum operating peak output voltage (Uout) of 5 V and a maximum output of max. 1 A.

NOTE!

The product should be recharged at a month if it is not used for a long period of time. If the product has not been charged for a long period of time (approx. 2 months), the Li-ion battery will be deep discharged. Then the product should be charged and discharged several times to reactivate the Li-ion battery.

Setting up the product

Position the product in an appropriate place, see **Fig. C**.

NOTE!

The surface should be even, so that the product cannot fall over.
Place a protective base underneath the free space around the product.
Place a protective base underneath the product, for example. Sensitive surfaces could become scratched by the product.

Hang the product with the hanging hole ⑧ on an existing hook or similar, see **Fig. C**.

3. Technical specifications

Type: UV Insect Killer with Light
IAN: 406846_2207
Tradix Item No.: 406846-22-A
Battery: 3.7 V ⎓, 2000 mAh (not replaceable), Li-ion
Charging time: approx. 5 h
Protection class: II/III
Protection type: IP20
Operating time: approx. 8 h
Dimensions (W x H x D): approx. 100 x 100 x 25 mm
Weight: approx. 0.2 kg
Permitted ambient conditions: 0 – 40 °C, max. 80 % RH
Light source: 3 W, 365 nm
Suitable room size: approx. 30 m²
Power supply: 5 V ⎓, 1 A
Protection class: III
Overvoltage category: II
Pollution degree: 2
Operating mode: continuous operation
Dimensions of the UV lamp: approx. Ø 16 x 36 cm
Dimensions of the high voltage grid: approx. Ø 16 x 36 cm
Dimensions of the base: approx. Ø 16 x 2 cm
Dimensions of the tray: approx. 14 x 14 x 2 cm
Dimensions of the protective grid: approx. Ø 16 x 36 cm
Dimensions of the packaging: approx. 17 x 17 x 40 cm
Weight incl. packaging: approx. 0.5 kg

5. Consignes de sécurité

⚠ AVERTISSEMENT !

Risque de blessure et d'étouffement !
- **Les enfants peuvent se blesser ou bien s'étouffer s'ils jouent avec l'emballage !**
- Ne laissez jouer les enfants avec le produit ou l'emballage.
- Ce produit n'est pas destiné à l'usage par des personnes (y compris des enfants) dont les capacités physiques, sensorielles ou mentales sont réduites, ou qui ne disposent pas de l'expérience et/ou des connaissances nécessaires, à moins qu'elles ne soient surveillées par une personne responsable de leur sécurité ou qu'elles n'aient reçu de cette personne les instructions nécessaires à l'utilisation de l'appareil.
- Si vous constatez un défaut sur le produit, faites-le contrôler et réparer si nécessaire avant de l'utiliser à nouveau.
- Les DEL ne sont pas remplaçables. Si les DEL ne sont plus fonctionnelles, le produit entier doit être remplacé.

⚠ AVERTISSEMENT !

Risque d'incendie !
- **Le produit ne doit pas être utilisé à proximité de matériaux inflammables !**
- Le boîtier ne doit jamais être ouvert et le produit ne doit pas être transformé/modifié. En cas de dysfonctionnements, défauts, il existe un danger d'incendie ou d'électrocution. Les transformations/modifications sont interdites pour des raisons d'homologation (CE).
- Le produit ne doit pas être recouvert pendant son fonctionnement.

⚠ AVERTISSEMENT !

Risque de surchauffe et d'explosion !
- Éloignez l'article de toutes sources de chaleur et d'un ensoleillement direct car il présente un risque de surchauffe et d'explosion en cas de surchauffe. Un risque d'incendie existe !
- Ne pas fonctionner l'appareil à proximité d'un radiateur ou d'une cuisinière.

⚠ AVERTISSEMENT !

Risque de blessures !
- **Ne pas toucher à main nue les surfaces chaudes après qu'elle ont été en service !**
- N'utiliser le Câble USB-C que dans des pièces sèches et fermées.

Le produit n'est pas adapté à une utilisation dans des garages, les locaux d'eaux usées ou à l'extérieur.

Le produit n'est pas adapté à une utilisation dans des chambres d'enfants ou à l'entourage d'enfants.

Le produit ne doit pas être utilisé par des personnes (y compris des enfants) dont les capacités physiques, sensorielles ou mentales sont réduites, ou qui ne disposent pas de l'expérience et/ou des connaissances nécessaires, à moins qu'elles ne soient surveillées par une personne responsable de leur sécurité ou qu'elles n'aient reçu de cette personne les instructions nécessaires à l'utilisation de l'appareil.

Ne laissez pas les enfants jouer avec le produit.

Ce produit n'est pas adapté à une utilisation dans des pièces humides ou mouillées.

Ne pas utiliser le produit à proximité de baignoires, douches, piscines ou autres récipients remplis d'eau.

Ne pas utiliser le produit à proximité de matières inflammables.

Ne pas utiliser le produit à proximité de sources de chaleur.

Ne pas utiliser le produit à proximité de sources de chaleur.

Ne pas utiliser le produit à proximité de sources de chaleur
